

FRA Post Accident Testing Criteria 01/01/14

Note: The Regulation
(Part 219 Subpart C)
remains the final
authority and
requirement criteria.

An employee may NOT be recalled for testing if he/she/ has been released under normal procedures UNLESS:

the employee went off duty prior to being contacted by a railroad supervisor; AND

there is a clear probability that THIS employee played a major role in the cause or severity of the accident/ incident; AND

the accident/incident occurred during the employee's duty tour.

If Post-Accident Testing is conducted, notify NRC at 800-424-8802 and FRA at 202-493-6313.

* This does not preclude the possibility of a Federal reasonable suspicion or reasonable cause test being appropriate.

** If railroad employee dies within 12 hours of an accident/incident as a result of such event.

*** Impact accident includes head-on collision, side collision, switching collision or impact with a deliberately placed object such as a bumping post. The following are NOT impact accidents:

1. Accident in which the derailment of equipment causes an impact with other rail equipment,
2. Impact of rail equipment with fallen trees, rock or snow slides, livestock, etc.,
3. Raking collisions caused by derailment of rolling stock or operation of equipment in violation of clearance limitations.
